CAN YOU SOLVE THIS PUZZLE?

Using only 3 girders and 1 warp pipe, can you create a safe path for the Mini Marios to march to the exit door? Draw girders in the gaps and a warp pipe in one of the two designated spaces. Once the Mini Marios start marching, they don't stop - so plan carefully. Watch out for the Capture Kong!

x3

You can use girders to bridge gaps - simply connect a girder between two girder rivets. You can even place them diagonally.

x1

Warp pipes transport your Mini Marios to the other Warp Pipe on the level.
